### COLOR CHOICES

#### **CARAMEL PATTERN:**

All caramels have light vertical stripes on front side of darker stockings which may be either black or brown. Muzzle, crown, eyes and ears distinctly accented in white and may be intermingled with hairs the same color as the body.

**CARAMEL:** The caramel color pattern can range FROM white to caramel hairs, intermingled with white in the undercoat making the top coat appear to be a shade of white/cream TO white hairs intermingled with darker caramel/buff hairs in the undercoat making the top coat to be a dark tan.

**AGOUTI PATTERN:** All agouties have solid stockings darker than the main body color (black stockings on grey agouti, brown stockings on brown agouti). Muzzle, crown, eyes and ears distinctly accented in white and may be intermingled with hairs in the same color as the body.

**GREY AGOUTI:** The grey agouti color pattern can range FROM black and white hairs intermingled with slightly more white hairs to give a light grey color, making the topcoat to appear to be silver/pewter in shade TO a darker grey appearance with fewer white hairs but still a salt and pepper appearance is pronounced.

**BROWN AGOUTI:** The brown agouti pattern can range FROM brown and white hairs intermingled with slightly more white hairs to give a lighter grizzled brown color TO mainly brown hairs with only occasional intermingled white hairs.

**BLACK AGOUTI:** Black mainly with only occasional intermingled white hairs

**BLACK:** Solid black except for muzzle, crown, eyes and ears distinctly accented in white. Tail may be accented in white.

**SOLID BLACK:** All black with NO lighter accented tones in the muzzle, crown, eyes and ears
