

AGENDA ITEM SUBMISSION FORM

Proposal

I move that Rules and Regulations, paragraph 4.G.2 be amended to read:

“Kids born from a bred doe which is sold shall be registered with both the herdname and assigned tattoo prefix of the breeder at the time of conception.”

Strike second sentence.

Reasons

Just as with any other kids that are registered, having the herdnames and assigned tattoo prefixes match keeps the registry cleaner. Goats in which the herdnames and assigned tattoo prefixes are at variance give rise to the possibility that something was amiss during the registration process.

Advantages

Consistency in the animal's registration.

Disadvantages

The seller may be difficult to locate to determine what the next sequential number(s) should be after the letter of the year.

Financial Implications

None.
