

Old Business Item B

With shows dropping in size, are reductions in number of animals to make sanction justified?
(Nash)

The minutes of the June 2009 Board meeting state: "Director Nash indicated that the show attendance in Region 8 has dropped drastically. Do we need to drop numbers in order to make sanction? This will be continued to the January 2010 meeting.

Show Rules, para G.1 and G.2 set forth the number of does or bucks required for official wins. Para D.5.d sets forth the number of wethers required for a Best Wether win. The question becomes... is the situation described by Director Nash sufficiently dire across NPGA to justify reductions in those minimum numbers?
