

Report for NPGA Report of Awards Coordinator:

Everything is running smoothly for the most part. I would like to stress that the judges pay more attention to filling out and making sure the ROA's are completely filled out, and that every box is marked as needed. If there are mailing labels enclosed please fill them out with the owners name and address, it saves me a lot of time. Sometimes the print is hard to read and I don't know if I get the correct address. Also, there have been a few times that the ROA's were not sent right away, should be 10 days after the show. I have not received some up to 2 to 3 months after the shows were done.

I try to save certificates until I receive the entire show, for example, if it's a two day show, and I received the 2nd show ROA's , I'll wait till the first one comes in to send out all of the certificates. This saves on postage if there are winners that were the same in both shows they can be mailed all together.

Below are some of the costs that accrued in 2009, my computer crashed so I lost part of the amount. I send all of the receipts to Dori, and I get reimbursed right away, Thanks Dori. That's about it.

Thanks,

Jeff Smith
