

Webmaster Report to the NPGA Board 1/2012

I have enjoyed being the NPGA webmaster for the past year. Aaron continues to be a close technical advisor.

I continue to make requested changes to the web pages as needed in a timely manner. I had the details of the board meetings posted very quickly and handle most requests from the President or Vice President within 48 hours. I update the breeders listing approximately once a week. I check and answer the email to the webmaster approximately once a week. The merchandise pages have been updated regularly.

Aaron Esterline hosts the NPGA website on his server. When the website goes down it is usually a server error. Aaron is very responsive when this happens and usually has it back up in a very short time once he is notified.

Beyond my agreed upon stipend I do not see any expenses for the website or webmaster, beyond the fees for renewing our domain name. Aaron handles this and bills accordingly.

Respectfully submitted,
Maggie Leman
NPGA Webmaster
