NPGA Webmaster Report 6/15

Aaron is still working on getting the Breeder's page banners going. At some point in the near future Aaron is going to take a big step back, and may only be available as a technical consultant. Much of the code in the pages on the site are slowly becoming obsolete. The coding on the pages will have to be updated so that it works better for modern browsers. I should be able to accomplish this in the background over the next 18 months or as needed.

Respectfully submitted,

Maggie Leman
